2020-2021 Haverford Cost Sheet International Students – First Year

For purposes of determining your financial aid, we have used the following amounts to represent the cost of attending Haverford College during the 2020-2021 academic year. Although we believe these costs to be accurate, the College does reserve the right to adjust the amounts as necessary. Should such adjustments happen, you will receive an updated Financial Aid Decision.

Tuition	\$58,402
Room and Board	\$17,066
Room and Board Fall Semester Credit*	-\$2,132
Student Government Fee	\$498
New Students' Orientation Fee (Fall semester charge only)	\$262
Books and Supplies	\$2,662
TOTAL	\$76,758

*Students with a fall disbursement of Haverford Grant greater than the room and board credit will see their Haverford Grant reduced. This is due to the fact that Haverford met your measured financial need in full, and now that the credit is reducing your need, the Grant has to be reduced in kind. Note that although the credit is applied entirely to the fall semester, the Grant reduction is spread across both fall and spring, to prevent a complete dollar-for-dollar exchange between the credit and grant.

Student health insurance is a separate charge that cannot be covered by financial aid. All students are required to have personal health insurance and will be charged for this by Haverford. International students cannot request to have this charge waived. The cost for health insurance has not been determined yet for the upcoming school year, but in 2019-2020 the cost was \$1,782. More information about student health insurance can be found on the Haverford Health Services web page. You can also contact the College's Health Service Office at (610) 896-1089.

Summer Savings. There is a standard expectation that all students save for college. This savings expectation is subtracted from the student's calculated financial need. For your first year this expectation *has not been subtracted*, allowing you to receive additional Haverford Grant. Be aware that in subsequent years you will be expected to save for college, and this expectation will be factored in the determination of your financial need. Future Haverford Grant may be less because of this. The student savings expectation for sophomores, juniors, and seniors is \$2,400.

On-campus job. We have included funds for a campus job as part of your aid. We recognize that COVID-19 may affect the ability for some students to acquire jobs. Nevertheless, earning wages is an integral part of receiving financial aid, whether on campus or not, and the College may not be expected to compensate for a student who cannot gain employment. Information about obtaining an on-campus job can be found on the Haverford Human Resources web page.

Tax information regarding grants and scholarships. Many students are surprised to learn that a portion of their grants may be taxed by the IRS. You are encouraged to review the tax information provided on

the financial aid website. Questions may be directed to Frank Wilson in the Controller's Office.
(fwilson@haverford.edu)

Information about billing and when payments are due is available through the Controller's Office at the Student Accounts page on the Haverford website. You can also contact Barbara Wilson, student accounts supervisor, at bwilson@haverford.edu. Be aware that the College will apply all financial aid funds first toward your college bill before any refund to you is permitted.

You must reapply for aid each year by the published deadline, and we will allocate aid based on our assessment of your need each year. Your eligibility for aid will last only for the normal period of time expected for you to complete your undergraduate degree at Haverford.
